SUMMARY

As a detail-oriented front-end developer, I bring problem-solving and logical reasoning skills to the table. Proficient in HTML, CSS, JavaScript, and ReactJS, I have over 2 years of experience in Web Development and User Interface Design. My experience includes real-time data fetching with RestfulAPIs and implementing reusable components for clean, maintainable code. I hold certifications in Front-End Development, React Basics, Programming with JavaScript, Version Control, HTML and CSS, Developing Soft Skills, Corporate Etiquette, and Agile with Atlassian Jira. My intensive upskilling in Front-end Development and commitment to delivering high-quality work make me a strong candidate for any front-end developer role in a dynamic tech company. I'm eager to contribute and thrive in a collaborative environment.
